

Exploring Nature

WILD FLOWERS THE AWAKENING OF NATURE

SPRING COLOURS AND FLOWERS

Celebrate Spring exploring the charms of Peneda-Gerês National Park. The woods and meadows are filled with life and color providing you unique moments for activities of observation. This trip takes place between different habitats where meadows and forests assume the major role. Distinctive flora of the Park is always present in a mix of Mediterranean, Atlantic and Continental influence, where we can find various Iberian endemic species.
